

VICRILA

Collection 2025

A close-up, low-angle shot of a glassblower's hands and tools working with molten glass in a furnace. The intense orange and yellow light of the fire dominates the scene, creating a dramatic and industrial atmosphere. The glass being worked on is glowing with heat.

Where excellence meets transparency

We make details

From the largest celebrations to family gatherings, every moment is unique and it's in the small details that make the difference. In our factory, we not only produce quality glass, but we are also helping to create your most precious memories.

Manufactured to provide functionality

The best way to demonstrate the functionality and attributes of our products is by testing them in real in-service environments.

Tempered

A much more resistant product

We guarantee unrivalled mechanical and thermal resistance.

VICRILA glasses are completely tempered from the mouth to the base, offering a product 5 times more resistant, where the glass does not break or crack.

- ⊕ Resistance
- ⊕ Safety
- ⊕ Durability
- ⊖ Replacements
- ⊖ Breaks

Sheer Rim

Pure and elegant

A technical treatment that brings comfort and sophistication to the finish of each item. This impeccable cut not only enhances the aesthetics, but also awakens your senses, taking every experience to a higher emotional level.

Lightness

Less weight, more resistance

We design items that are slimmer and 15% lighter across all our ranges, while maintaining unrivalled strength. Lightness not only adds elegance, but also facilitates a more agile service.

- ⊕ Easy to handle
- ⊕ 15% Lightness
- ⊕ Stylised

Stackability

Our strength

Optimise your space with our stackable products, which save up to 60%. In addition to gaining space, stackability makes handling items quicker. All are designed with tempered strength to stand up to professional use.

- ⊕ Space saving
- ⊕ Easy to collect and handle
- ⊕ Tableware hygiene
- ⊕ Safety

Maximum oxygenation

Experience excellence in tasting with items designed to maximise oxygenation. The shape of our products elevates the perception of smells and flavours with every sip.

Filling level indicator

The change of shape in the profile of the article serves as a filling indicator for proper capacity. On the other hand, by pouring the correct amount of liquid, we leave the necessary space in the container for the aromatic components.

Perfect Height

Items with this attribute are perfect for making the most of the space inside the dishwasher, without running the risk of breakage due to incorrect placement. Ideal to accommodate standard size wash baskets.

Visual increase in capacity

Our items are not only visually appealing, but also visually increase the amount of liquid contained in the item. This design attribute allows for greater performance in beverage service.

Large surface to decorate

Personalise your items with the peace of mind that comes from having a large space to decorate. Your message, brand or design will have the visibility it deserves by having a large surface to work on.

Elytium Family

The best sheer rim

Immerse yourself in our exclusive fine cut collection, where elegance meets perfection, each line and shape a testament to the dedication and care we put into each piece.

Discover it in every sip, where form merges with content to bring you an extraordinary moment.

Hostelvia Family

It's for you, hotelier

This collection is designed to become your ally, because the durability and efficiency of the item are the real protagonists.

Our aim is to simplify your everyday life with ergonomic designs, unbreakable and therefore more durable items or space-saving cups that allow for agile handling.

Therefore, with durability as our flagship, this collection is more than just a set of cups and glasses; it is a tribute to the passion that beats at the heart of the hospitality industry.

Discover the perfect harmony between functionality and style, and let each glass tell the story of impeccable, long-lasting service.
